

**National Interagency Coordination Center  
Incident Management Situation Report  
Sunday July 13, 2014 – 0530 MT  
National Preparedness Level 2**

**National Fire Activity**

Initial attack activity: Light (136 new fires)  
 New large fires: 0 (\*)  
 Large fires contained: 4  
 Uncontained large fires: \*\* 6  
 Area Command Teams committed: 0  
 NIMOs committed: 0  
 Type 1 IMTs committed: 2  
 Type 2 IMTs committed: 3

\*\* Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

**Northwest Area (PL 2)**

New fires: 20  
 New large fires: 0  
 Uncontained large fires: 3  
 Type 1 IMTs committed: 1  
 Type 2 IMTs committed: 2

**Mills Canyon**, Southeast Region, DNR. Transfer of command from IMT 2 (Rabe) to IMT 1 (Lewis) will occur today. Two miles southwest of Entiat, WA. Timber, brush and grass. Active fire behavior with short-range spotting. Numerous residences threatened. Evacuations and road closures in effect.

**Lake Spokane**, Northeast Region, DNR. Transfer of command from IMT 2 (Leitch) back to the local unit will occur today. Four miles south of Ford, WA. Mixed conifer and grass. Creeping and smoldering. Residences threatened. Evacuations have been lifted.

**25 Mile Creek**, Southeast Region, DNR. Fifteen miles northwest of Chelan, WA. Timber, brush and grass. Creeping and smoldering. Structures threatened. Reduction in acreage due to more accurate mapping. Last report unless significant activity occurs.

**Predictive Services Discussion:** Strong high pressure over the western U.S. will drive temperatures 10 to 20 degrees above normal today while an equally strong low pressure system over the Great Lakes region will keep conditions unseasonably cool. Between these two features, storms will arise on the high Plains east of the Rockies. Also look for showers and thunderstorms in the northeast U.S. as well as the moist, monsoonal flow over the Desert Southwest.

# LEAD Time

## Leadership Environment

*Leadership Category*

Leadership is defined as the act of influencing people in order to achieve a result. The leadership environment is made up of critical elements that a successful leader must consider in planning for effective action. Those critical elements are:

- **YOU** - the leader, who is ultimately responsible for all action and results.
- **YOUR PEOPLE** - those that you are responsible for.
- **SITUATION** - comprised of the many unique variables that influence a leader's decision such as objectives, conditions, resources available, organizational influences, and others affected by the action.
- **CONSEQUENCES** - the short and long-term effects of your actions.

Leaders constantly assess the elements of the leadership environment and adapt accordingly. Successful leaders understand the interplay of these variables and demonstrate flexibility in selecting appropriate leadership tools and techniques as a situation changes.

### Discussion Points

- **Each mission has a different level risk. Discuss how the 4 leadership environment elements affect perceived risk in a changing environment.**
- **Each situation is unique and changes over time. Discuss what changes you might predict in your environment today.**
- **Discuss what leadership tools might be appropriate for those predicted changes today.**
